# AWARD-WINNING SMILE AVENUE FAMILY DENTISTRY

EMPOWERING. EDUCATING. ELEVATING.

## COME JOIN THE SMILE AVENUE DENTAL FAMILY

Call today to schedule an appointment. Smile Avenue Family Dentistry was voted Best Cosmetic Dentist and Best General Dentist in Cy-Fair, earning the practice two Living Magazine 2019 Readers' Choice awards. Dr. Vuong was also named a 2018 Top Doctor in Texas.

The Smile Avenue Family Dentistry team is passionate about providing the best high-quality, modern dental care available. They also work hard to wow you with the ultimate, personalized dental experience at each visit. The stylish new high-tech office—which even has a 3D printer for fabricating clear orthodontic aligners—includes nearly every comfort amenity you can imagine. But there's more to Smile Avenue Family Dentistry than meets the eye. They go above and beyond to cater to their patients' comfort and well-being.

"We're here to serve you and to show you that a dental visit can be a positive experience," says Owner and Founder Dr. Patrick Vuong.

### MEET SMILE AVENUE'S DR. KYLE PIHA AND DR. TO DOAN

"Dr. Piha and Dr. Doan are talented, compassionate dentists—two of the best, in my opinion," says Dr. Vuong.

Dr. Doan's brother influenced him to consider dentistry. "I love helping people, enjoy working with my hands, and like drawing and painting. Dentistry was a perfect fit for me," Dr. Doan says.

"What really thrills me is seeing the final result of my work, whether it's a small correction or an extensive cosmetic case," Dr. Doan shares. "One of my patients looked at least 10 years younger after cosmetic dentistry. The results were so profound, we cried tears of joy together."

Dr. Doan received his DDS from the University of Texas at Houston's Health Science Center. Dedicated to the pursuit of knowledge, he takes continuing education courses to perfect his art of dentistry and aspires to earn a Fellowship in the Academy of General Dentistry. When he's not with his two French Bulldogs or helping patients, you can find Dr. Doan reading a book or traveling the world, exploring different cultures and exotic cuisine.

Dr. Piha hails from a small island town on Florida's Gulf Coast where he spent his youth fishing and boating. Losing his two front teeth during a boyhood accident piqued his interest in becoming a dentist. "I shadowed a dentist as a high school senior in a medical academy, which confirmed that dentistry was my calling,"

Dr. Piha shares. "As a dentist I can positively impact a patient's life and health, and I especially enjoy caring for our pediatric patients." Giving kids a good dental experience helps them avoid developing a fear of going to the dentist.

After completing a BS from the University of Central Florida, Dr. Piha earned his DDM degree from Lake Erie College of Osteopathic Medicine's School of Dentistry in Sarasota. He practiced in an outreach clinic providing dental care to the underserved rural areas in Pennsylvania during his last year as well. He and his wife, whom he met in dental school, enjoy traveling, the culture and diverse foods of Houston, and spending time with their dogs.

Read the dentists' complete bios as well as Dr. Vuong's impressive bio at [SmileAvenueFamilyDentistry.com](http://SmileAvenueFamilyDentistry.com). Dr. Vuong is Invisalign-certified, certified in CPR, 6 Month Smile-certified, and certified in nitrous oxide and oral sedation level 2-certified.

### KNOWLEDGE IS EMPOWERMENT

Smile Avenue Family Dentistry offers a judgement-free environment and uses advanced technology to educate patients. Sharing 2D and 3D digital X-ray images with patients, for example, enables patients to see what the dentists see.

"We live in a visual world," says Dr. Piha. "The image helps us explain things that need to be addressed and treatment options so patients can make an informed decision."

Dr. Doan adds, "We listen and educate our patients rather than come to a quick conclusion and just dictate what we're going to do. This helps form a trusting bond."
